

Coarse Thread Stud Socket Fitting

Electroline's stud socket fittings are used for a variety of applications. The swageless rope termination and threaded rod allow a rope to be quickly attached (without special tools or processes) and tensioned using the included washer and nut. [Longer and wider sizes](#) are also available.

- Available for rope sizes from 1/8 to 1 inch in diameter.
- Fitting strength exceeds the rated breaking strength of most ropes.
- Material options include self-colored steel; zinc-plated or galvanized steel for corrosion resistance; or stainless steel for a more attractive appearance.

Specifications

Termination Type Swageless

Connector Type Stud
