

Technical drawing of a screw with dimensions A, B, C, and D. Dimension A is the length of the threaded portion. Dimension B is the length of the unthreaded portion. Dimension C is the total length of the screw. Dimension D is the diameter of the screw head. The word 'THREAD' is written at the bottom of the drawing.

- Available for rope sizes from 9/16 to 1-1/2 inches in diameter.
- Fitting strength exceeds the rated breaking strength of most ropes.
- Material options include self-colored steel; zinc-plated or galvanized steel for corrosion resistance; or stainless steel for a more attractive appearance.

Termination Type	Swageless
Connector Type	Stud
