

A detailed illustration of a rope knot, specifically a bowline, which is a secure loop that does not slip or rotate under load. The rope is light gray with a visible braided texture. It is attached to a metallic shackle, which is shown in a light gray, reflective finish. The shackle has a hexagonal base and a curved, hook-like top. The entire assembly is set against a plain white background.

- Designed for 6x19 IWRC or 7x19 right regular-lay wire rope.
- Efficiency of over 90% or rated wire rope strength.
- Assembly includes a two-piece plug and a cold-finished bar-steel socket.

**Material** Yellow Zinc Plated
