GOLD BAND™ OCEANIC & SPECIALTY

Model SS-68 - Clevis/Eye Sealed Swivel

Electroline's Model SS-68 industrial swivel is designed for ocean surface (above water) application. It features a clevis (fork/jaw) fitting with a pin and an eye-end fitting. Constructed from stainless steel, the swivel has a grease-filled housing that is sealed to prevent water entry. The angular contact bearings provide higher-speed, low-torque rotation for longer rope lengths.

- The tapered ends are designed to prevent snags on other equipment or cables.
- Ultimate strength exceeds the rated Safe Working Load (SWL).
- Note: Model SS-68 is a reversed design of the Model SS-65 Clevis/Eye Swivel.

Specifications

Material Stainless Steel **Termination Type** Clevis, Eye **Connector Type** Clevis, Eye Water Pressure Resistance Moderate
